

A ONE-STOP SHOP  
FOR YOUR  
**CONSTRUCTIONS**  
AND BEYOND

# Brazilian Lumber is...

Premium decking,  
**built the right way**

Brazilian Lumber is a place where you can find everything you need for your buildings. The brand specializes in manufacturing and importing sustainably sourced tropical hardwoods and outdoor decking materials.

## Reasons to prefer us

1

### We are a one-stop shop

We offer a place where customers can purchase a wide variety of tropical hardwoods, composite decking, maintenance products, decking accessories, and artificial turf to create exceptional living spaces.

2

### We care for the environment

We believe that sustainability and responsible forestry management are the key to conservation. That's why we are insistent on offering FSC certified wood and all wood has a chain of custody.

3

### Our wood is the BEST in the world

When you buy our Brazilian tropical hardwoods, you are getting:

- High quality
- Strong natural properties
- Long-lasting material
- Sustainable resource

# CONSERVING THE RAINFOREST IS EVERYONE'S MISSION

**Did you know that rainforest resources can be used through sustainable resource management?**

This technique keeps the forest standing, and ensures conservation of the environment and biodiversity, as well as contributing to carbon sequestration. It also reduces the impact of the greenhouse effect.

**But, what does sustainable management mean?**

Before selecting the trees, an inventory of the flora and fauna is made. A forester designates the trees that can be harvested according to their maturity and respecting their natural cycle. The entire process is monitored by satellite, which makes it possible to collect data on the history of each tree.

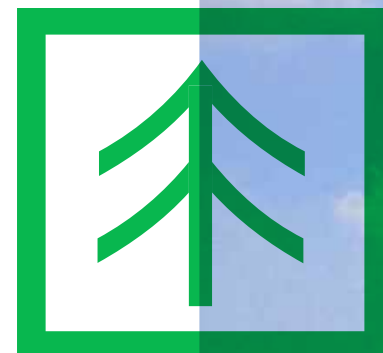

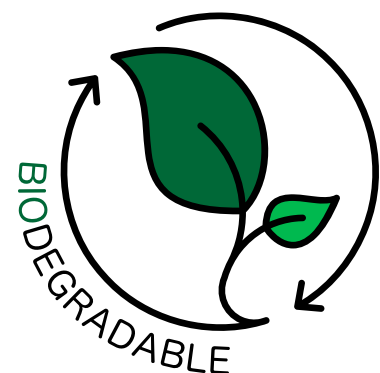

“

**OUR WOOD,  
OUR PEOPLE,  
& OUR CUSTOMERS,  
ARE THE KEY PIECES  
OF OUR COMPANY ”**

As a company, preserving the environment is our core value, so we sincerely believe that following a sustainable procedure is the right thing to do.

Nevertheless, environmental protection is everyone's responsibility, so when you choose products that come from sustainably managed forests, you are doing your part to contribute to the survival and conservation of the forest.

# PVC DECKING

PVC decking boards are made of synthetic materials only, without any wood shavings or wood by products. Its boards are made of recycled polyethylene or polyvinyl chloride.

**This material is often preferred by contractors when installed next to the ocean because it is highly resistant to corrosion, fading, and general degeneration than traditional wood.**

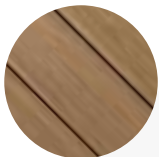

This brand's products use polymers to withstand the tests of time and weather. Choose from Azek's diverse collection to add stylish details to a variety of exterior applications.

### **Simpson is THE solution**

For more than 50 years, Simpson Strong-Tie has focused on creating structural products that help people build safer and stronger homes and buildings.

Considered a leader in structural systems research, testing and innovation, Simpson Strong-Tie is one of the largest suppliers of structural building products in the world.

**EB-TY® Premium Hidden  
Deck Fasteners™**

# VIKING<sub>HARDWARE</sub>

## **This is the most advanced rain screen system on the market**

The Viking Clip hidden fastener installs wood siding permanently and beautifully on commercial and residential projects.

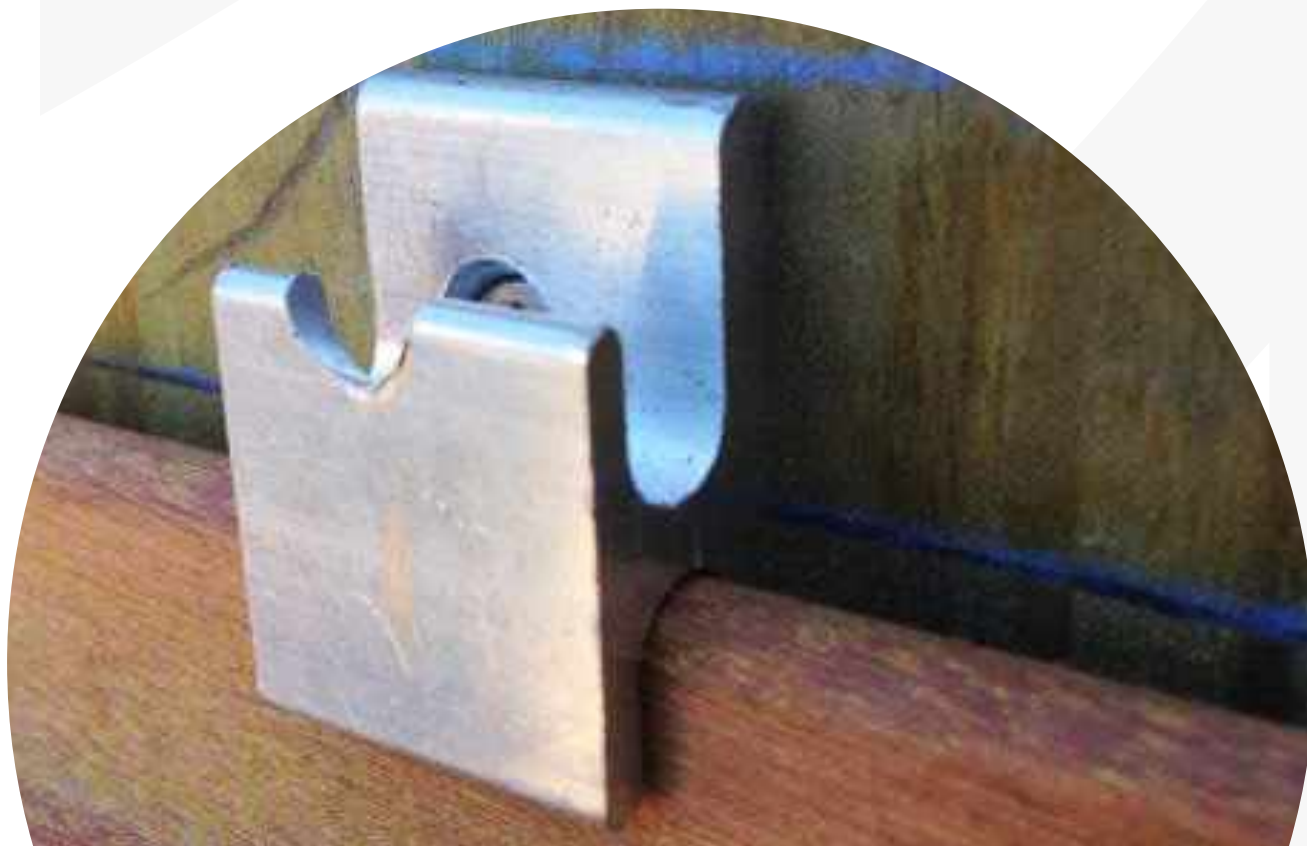

### **Did you know that the rain screen siding system dates back to the 12th Century?**

Norwegians and Japanese built the first known rain screens, which have withstood the tests of time.

The Viking Clip System provides lasting strength and beauty to the rain screen design. It is also the most affordable of the many concealed fasteners available on the market.

**Viking Clip Fasteners**

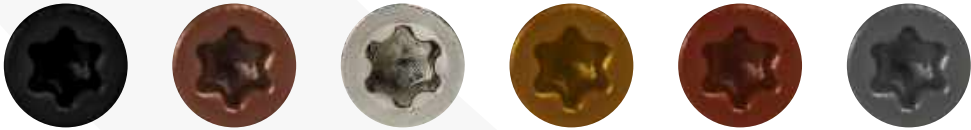

**Deckwise has the BEST accessories  
for your outdoor construction projects**

This company has manufactured high quality Made in the USA hidden deck fasteners for exotic hardwoods and composite deck building since 2000.

With a proven track record of extraordinary customer satisfaction, these deck building products are comprised of high-grade long-lasting materials.

### For a flawless installation, go for Trex Hideaway

Install grooved edge deck boards to joists without the screw heads being visible on the walking surface, and achieve precise, consistent spacing between boards with Trex Hideaway® Universal Hidden Fasteners.

All Trex® deck collections are compatible with this hidden installation option, giving you a clean finish no matter your design style.

**Trex Hideaway®  
Universal Hidden Fasteners Box**

# OIL DECKING

## Apply oil to the wood to preserve its color

**Our oils are formulated to penetrate the surface texture of the wood. This means that the product protects the wooden decking from the inside.** The high concentration of oil and wax makes the boards very resistant to water and dirt penetration, while providing a very durable and easy-to-care surface.

**An important fact is that a suitable oil must contain UV protection.**  
The oil brands we offer meet this recommendation.

**EASYDECKS**

**Ipe Oil™**  
Hardwood Deck Finish

# EASYDECKS

The ally to give a perfect finish to hardwoods

We have developed the **BEST Hardwood Oil Finish**. Suitable for sidings, rails, and decks. It is a semi transparent brown liquid, which has an architectural grade formula badge.

Semi transparent brown liquid

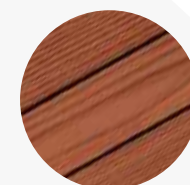

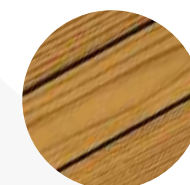

### Alternatives that also stand out from the crowd

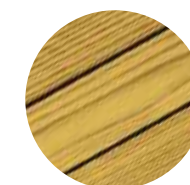

We have a few other remarkable oil finishes from our partners. This product is specially formulated for exterior wood and provides a penetrating protective finish to your hardwood. It can be used on siding, railings, and decking, which will maintain the wood's natural color and prevent graying or fading.
