VERSION 01

STORAGE

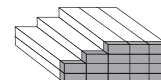

- Do not store together with products that may damage them, such as plaster, paint, and cement.
- Do not tie or use compressive means to store the packages.
- Protect the product against weather conditions by avoiding dark-colored plastic sheets, particularly black ones.

Do not store on uneven floors or irregular surfaces.

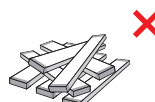

Store in a covered, well-ventilated place, with a temperature below 45°C (113°F), protected from sunlight or other heat sources.

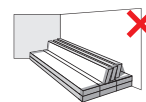

Maximum storage stacking should be 30 packs.

Do not place or lean objects over the packages to avoid damaging them.

Avoid excessive movement of packages before use.

When storing, always stack horizontally, never vertically or leaning against the wall.

Read the Warranty Terms and other website information at www.tetovinilico.com

USAGE

- Product intended for indoor use only;
- Do not use adhesive tapes as they contain solvent; if needed, please use masking tape only (do not exceed the 24-hour time limit)
- Separate the products by batches

INSTALLATION

- Before installing, refer to our manual on the website;
- Do not install near heat sources;
- Wear clean gloves when installing the product to avoid staining the varnish.

TRANSPORTATION

- Do not constantly change storage locations;
- Use two people or an appropriate moving cart to transport the product;
- Do not drag packages onto others. Do not step on or walk over the packages;

CLEANING

- Use a soft cloth, water, or water and alcohol solution for cleaning;
- Do not use chlorine-based products, solvents, and abrasives.

Produced by **ARÁFORROS**.
